

ABOUT FREEWEBSITE

These days, businesses need a website to survive in this highly competitive ecosystem. Websites are a one stop place for businesses to park their information in the form of products and services. A website these days need to be engaging and animated in order to capture one's audience. I have especially curated a stunning website here for you to take a peek at so that you may form your opinion.

Websites are particularly useful for home-based businesses and there is very little investment needed to start your own website. Free websites online are usually static and lacks animation. They have only the basic text and images that will soon bore your audience.

At myfronteStore, we have specially curated and designed suitable websites that take into account your prevailing tastes. It is made to look awesome and enrapturing, all designed to capture your viewer's attention and keep them coming back to your site.

Payment Gateway

6 If you have a Paypal account, you can easily collect payments from your customers. You can apply one for free [here](#). Once you have signed up with a Paypal account let us know so we can create a Paypal button for you which will be embedded into your website. When visitors to your webpage click onto your Paypal button, payment is made straight into your Paypal account.

If you don't have a Paypal account, you can request to meet up at a convenient place to pass the item to your customer. But you will need to let us know that in order for us to have that information placed into your webpage.

Alternatively, if you are in Singapore, you may use PayNow, Paylah(DBS) or PayAnyone (OCBC), to receive payments. This is also provided your customers have this very same Payment gateways. You may like to have all three, as this means you have a wider options to receive payments.

Animated Fea

7 This features a summary of all your products on this page. This highly animated feature is designed to catch your audience's interest and make your webpage standout in the crowd. Animated features are also available on your webpage's background.
